Professional Summary

Information Technology student with hands-on experience in cybersecurity and SOC lab environments. Skilled in log analysis, alert investigation, vulnerability assessment, and network traffic monitoring using tools such as Wireshark, Nmap, Burp Suite, and Windows Event Viewer. Familiar with SIEM fundamentals, alert triage, and incident detection. Seeking an entry-level SOC Analyst or Cybersecurity role.

Skills

- **Programming:** Python, C++
- **Operating Systems:** Kali Linux, Ubuntu, Windows
- **Security Tools:** Nmap, Wireshark, Burp Suite, Windows Event Viewer
- **SIEM & Monitoring:** Splunk (Basic), Wazuh (Basic)
- **Security Concepts:** Network Security, Web Security, TCP/IP, OSI Model, Authentication, IDS
- **SOC Operations:** Log Analysis, Alert Triage, Incident Detection, Log Correlation
- **Other:** Ethical Hacking, AWS IAM, SQL
- **Soft Skills:** Analytical Thinking, Problem Solving, Communication, Team Collaboration

Projects

Cyber Attack & Defense Lab

Kali Linux (Attacker) / Windows (Target)

- Conducted port scanning, vulnerability assessment, and network traffic analysis using Nmap and Wireshark
- Monitored Windows Event Logs to detect threats and analyze attacker behavior
- Performed packet analysis and threat detection in a controlled SOC-like environment

Web Application Security Testing

- Performed HTTP interception, vulnerability scanning, and exploitation testing using Burp Suite
- Identified and demonstrated SQL Injection and other web vulnerabilities
- Conducted comprehensive web security assessments following OWASP guidelines

Blockchain DApp Development

- Developed and tested a decentralized application with smart contracts for token swap system
- Implemented secure transaction mechanisms on a local blockchain network
- Strengthened understanding of distributed systems security and blockchain fundamentals

Experience

Cybersecurity Team Member

CyberPeaceCorps KIIT Chapter, Bhubaneswar, Odisha

January 2025 – Present

- Organized CTF competitions and cybersecurity awareness programs for students
- Provided technical support for events including setup and troubleshooting of security tools and lab environments
- Led and assisted training workshops for volunteers on cybersecurity concepts
- Collaborated with team members to ensure smooth execution of events

Blockchain Intern

Launched Global (Remote)

May 2025 – June 2025

- Developed and tested a blockchain-based decentralized application
- Gained practical experience in distributed systems and cybersecurity fundamentals

Education

B.Tech in Information Technology

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar

Expected Graduation: June 2027

Certifications

- **Web Security** – DevTown
 - **Blockchain** – Launched Global
 - **Ethical Hacking** – Atil Samancioglu
-
